

# Momentum Trainer

## Superior Technology

### 1. Revolutionary Cordura Fabric

- "The Tough Stuff"
- Enhanced durability with the same breathability and comfort as traditional mesh

### 2. Speed Lacing System

- Quick and easy fit
- Maximum comfort

### 6. KZone/OZone Sock Liner

- Moisture-wicking performance
- Anti-odor, anti-microbial finish

### 5. Injection-Phylon Midsole

- Superior comfort, durability
- Lighter, stronger, faster
- Environmentally friendly

### 3. REVV Proprietary Aggressive Outsole

- Traction of a cleat with the versatility, comfort of a trainer
- Grade A Rubber prolongs life of outsole traction

### 4. TPU Shank

- Increased arch support
- Added comfort during prolonged use

## 3T2 Competitive Advantage

### Game-Changing Comfort

- State-of-the-art midsole/outsole combination reduces joint pressure, thereby providing added support to the knees and back
- Injection-Phylon Midsole retains cushion 3-4 times longer than traditional EVA midsoles

### Unrivaled Performance

- Cordura fabric is 10x more durable than mesh with the same comfort, flexibility and breathability
  - Same fabric used in military footwear
- Perfect combination of strength, speed (only 12.4 ounces), and comfort
